Professional Summary

Project Manager with a background in materials science and experimental research. Experienced in coordinating complex research environments, structuring multi-stakeholder projects, and driving process improvements using Lean methodologies. Bridges scientific insight with operational execution to enable efficient and reproducible research.

Selected Impact

- Reduced recurring laboratory costs by more than €25K per year by bringing outsourced work in-house and redesigning laboratory procedures.
- Coordinate supplier follow-up and technical issue resolution, ensuring accountability and alignment with agreed equipment specifications.
- Coordinated a laboratory relocation across multiple stakeholders and supported equipment planning and post-move troubleshooting.

Professional Experience

Project Manager **2026–Present**
University of Twente *Enschede, NL*
- Coordinate research operations, project planning, milestones, resources, and workflows across MSc, PhD, and postdoctoral projects.
- Develop and implement onboarding, technical training, and laboratory safety procedures to support researchers and shared facilities.

Senior Scientist **2021–2026**
University of Twente *Enschede, NL*
- Led research infrastructure and experimental design; supervised students and supported advanced material characterization.

Researcher & PhD Researcher **2015–2021**
University of Twente *Enschede, NL*
- Conducted research on oxide thin films and nanoscale materials; developed experimental methods and simulations; supervised students.

Education

PhD in Materials Science
University of Twente *Enschede, NL*

Skills

- **Project Management:** Research operations, multi-project coordination, stakeholder management, resource planning, milestone tracking
- **Process Improvement:** Lean Green Belt (completed May 2026), Kaizen, workflow optimization
- **Technical:** Experimental design, Design of Experiments, PLD, SPM, Python, data analysis

Languages

Portuguese (native), English (fluent), Spanish (intermediate), Dutch (basic)

Personal Interests

Running, Bouldering, Drumming, Cooking, Reading
